Are you in the middle of a writing assignment? Is the deadline approaching and there are still many pages to write? The GSAH writing retreat in September 2023 is aimed at doctoral students of all programs of the GSAH as well as Junior Fellows of the IFN who are in the intensive writing and final phase of their dissertation or other writing project (all languages). The writing retreat offers participants a structured time-out from everyday university life to pursue their own research. At the same time, the disciplinary exchange and networking of the participants is promoted. The daily schedule includes two to three intensive writing phases in the morning and afternoon as well as breaks and time for exercise/relaxation. If necessary, individually designed exchange rounds on text drafts and writing strategies or techniques can be coordinated. The aim is for participants to concentrate on their own writing project during this week and to advance it efficiently.

Venue: Hotel Meielisalp, Leissigen (BE)

Meielisalp – encounter with a view. Peace, suitable infrastructure, courteous service, good food and an atmosphere to feel good – that is what the Hotel Meielisalp offers. The unique location of the Meielisalp in the middle of forest and meadows helps you to concentrate. The surroundings are excellent for outdoor activities and to clear your brain.
