Walter Benjamin Kolleg, Research Pool, Muesmattstrasse 45

GSAH Brown Bag Lunch **with the author and activist Cristina Morales**

Invitation to an informal lunch talk with the the seventeenth Friedrich Dürrenmatt Guest Professor, the Spanish author and activist Cristina Morales. We will prepare soups with bread and hope for lively discussions and food for thought!

Cristina Morales is considered as one of Spain's most promising young authors. She has worked as a playwright at various theatres and has already received numerous literary prizes for her short stories and novels. In her latest successful novel „Lectura fácil“ (2022, German: „Leichte Sprache“), Cristina Morales takes the perspectives of four „mentally handicapped“ women.

Energetically and bluntly, they express their anger at a society that patronises and restricts them. For the novel, the author was awarded the international literature prize of the Haus der Kulturen der Welt in Berlin.
